Objective

BCA graduate with strong foundation in Java, OOP, and backend development. Seeking an entry-level Java Developer role to leverage skills in Core Java, Spring Boot, and SQL to build scalable, high-performance applications. Hands-on project experience with REST APIs and database integration. Quick learner with strong debugging skills.

Experience

Micro Info Web Pvt. Ltd	
- Associate Software Engineer	
-Store manager	02/24
Managing the store	06/25
Analyzing requirements	
Reliance Smart bazaar	09/25 - still
Analyzing requirements	working
Managing a particular department	

Education

New english high school	2019
10th SSC	
79	
New english high school and junior college	
12th HSC	2021
80	
Kamla nehru mahavidyalay	2026
BCA	

Projects

Employee Management System | Java, Spring

Boot, MySQL, Thymeleaf

- Developed full-stack CRUD application to manage employee records using Spring Boot and Spring Data JPA
- Implemented REST APIs for Add/Update/Delete/Search operations with MySQL database

- Created responsive UI using Thymeleaf and Bootstrap with form validation
- Used Spring Security for role-based login authentication

2. Online Banking Application | Core Java, JDBC, MySQL

- Built console-based banking system with account creation, deposit, withdrawal, and transaction history
- Used JDBC for database connectivity and implemented exception handling for invalid transactions
- Applied OOP concepts like Inheritance, Polymorphism, and Encapsulation
- Ensured data consistency using SQL transactions

3. Library Management System | Java, Swing, MySQL

- Designed desktop application for issuing, returning, and tracking books using Java Swing GUI
- Integrated MySQL using JDBC for storing book and student records
- Features include fine calculation, search functionality, and admin dashboard
- Implemented MVC architecture for clean code separation

4. Weather App REST API | Java, Spring Boot, OpenWeather API

- Built REST API that fetches real-time weather data using RestTemplate
- Exposed endpoints to get weather by city name with JSON response
- Added global exception handling and input validation using Spring Boot
- Tested APIs using Postman

Activities

- Movies
- Cricket
- Badminton

MY CUSTOM SECTION

CERTIFICATIONS & TRAINING

- Java Full Stack Development - [technoglobe]
- SQL for Beginners
